## Career Objective

Motivated biotechnology undergraduate student with a strong foundation in molecular biology, chemistry, and laboratory techniques. Seeking an internship opportunity to apply academic knowledge, gain hands-on experience and contribute to innovative research in the life sciences.

## Education

**BSc (Hons) Biotechnology – Sri Lanka Institute of Information Technology.**

2025 – Present

Advanced Level – Biology Stream, [Anula Devi Girls College Galle], 2024

Ordinary level-3A,3B,3C.

## Skills

- Laboratory: PCR, Gel electrophoresis, Spectrophotometry
- Computer: MS Office, SPSS, PowerPoint
- Soft Skills: Teamwork, Communication, Time Management

## Work/Internship Experience.

### Laboratory Intern.

Faculty of Science July 23-August 2024

- Assisted in preparing chemical solutions and recording observations.
- Conducted acid-base titration experiments under supervision.
- Maintained safety standards and lab cleanliness.

### **Achievements.**

- Dean's List (Year 1 Semester 1)
- Presented a group project on 'Genetically Modified Organisms Ethics Debate' 2025.

Completed practical: chemistry of biomolecules with detailed labreport.

Active member of University Science Society.
